OBSERVATION INFORMATION

| Species     | Date(s) Observed | Spawning | Rearing | Migration  | Anadromous |
|-------------|------------------|----------|---------|--|------------|
| COHO SALMON | <u>7/27/95</u>   |          |         | <input checked="" type="checkbox"/> <u>100's</u> | yes        |
| " "         | <u>7/19/94</u>   |          |         | <input checked="" type="checkbox"/> <u>10's</u>  |            |
|             |                  |          |         |  |            |
|             |                  |          |         |  |            |

**IMPORTANT:** Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as any other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: Mouth point located in T11N R11W section 19.
